

**GROW OUR ASSOCIATION BY ENCOURAGING OTHER ASSESSORS TO JOIN TODAY!**

**Strengthen your voice in matters which concern the way you work.** Our Association was established in 1995 by a small group of assessors concerned about the way assessors are expected to process safe, knowledgeable plant operators under the national instruments of assessment. Our group expanded over the years to include members in all States and Territories and have now also amalgamated with TRANZnet, an international body of professional trainers and assessors.

Our committee now represents assessors' views in regular meetings with Members of Parliament, WorkSafe, other government departments and other interested groups. Let us know concerns as an authorised assessor and magnify the voice of all assessors who have an active interest in reforming our instruments and standards.

Membership is not for TAFE colleges or other employers or organisations. Our association is specifically designed to serve the interests and needs of assessors.
